Skills

- C/C++, HTML, CSS, some JavaScript, Python
- Adobe Illustrator, Photoshop, Premiere Pro

Education

University of California, Los Angeles   **September 2016 – June 2020 (projected)**
Computer Science Major
- 3.80 GPA
- Coursework: CS 31–32: Intro to Computer Science, CS 33: Intro to Computer Organization, Math 31B – 33A

Granite Bay High School   **August 2012 - May 2016**
- Academics: Valedictorian Speech, International Baccalaureate Diploma, Weighted/Non Weighted GPA: 4.63/4.00

Experience

BuildUCLA - *Developer* | GitHub   **July 2017 – Present**
- Project: Community Cataloging - Rails app for campus library that catalogs books written in foreign languages
- Worked towards combining ScribeAPI, at the core of our app, with OCR and other features to streamline process
- Picked up past developers' projects and documentation and planned + documented for future BuildUCLA progress

Poasis - *Web Developer*   **April 2017 – June 2017**
- Worked in a team of developers for a local startup to improve and add on to the company website for parking
- Reviewed previously written code and database to work towards new webpages using established framework

Daily Bruin - *Graphics Contributor*   **January 2017 - Present**
- Worked alongside a team of designers on effective infographics for the award-winning campus newspaper

Circle K International - *Graphic Design Chair & AV/Tech Chair*   **March 2017 - Present**
- Handled all things tech at Fall Training Conference 2017: website development, AV equipment, and more
- Used Adobe Photoshop and Illustrator to design graphics and establish club branding with logo and central theme
- Worked closely with a diverse range of committees and delegated tasks to my own committee members

Morning Sign Out at UCLA - *Editor*   **October 2016 - Present**
- Provided feedback on students' articles on topics such as Current Research and Public Health
- Ensured other members' writing was appropriately scientific, free of errors, and consistently comprehensible

Projects

Website for Fall Training Conference 2017 – *HTML, CSS* | ftc.cnhcirclek.org | GitHub
- Built website for an event with 600+ attendees from CA, NV, and HI following event theme and graphic standards
- Actively maintained and updated site with new information as necessary leading up to the event

Mesh – *HTML, CSS, JavaScript* | jonathanchu78.github.io/Mesh | GitHub
- Built an event schedule web app at LA Hacks 2017 meant to replace paper pamphlets at large-scale events
- Provides a template for large event organizers to upload event info/details for attendee access

Game Website – *HTML, CSS, JavaScript* | jonathanchu78.github.io/Games | GitHub
- Worked in a team of 3 to build a website with multiple browser games at a small-scale hackathon

Community Service: 300+ hours cumulative
Hobbies/Interests: Graphic Design, Web Design + Development, Health Literacy, Speedcubing, Classical Music
